France and Russia Outwitted by Salisbury.

Why the Khedive's Investiture was Suddenly Postponed.

An Italian Fleet Ready to Back England's Demands in Egypt.

Ready to Fight Against a Parlia-ment in Dublin-Great Cotton Spinners' Lockout.

By Telegraph to The Times.

LONDON, April 8.—[Copyright, 1892 by the New York Associated Press.] Lord Salisbury scored a victory in the diplomatic contest with France and Russia over the firman of investiture of the Khedive of Egypt. When the Sul-tan's envoy, Eyoub Pasha arrived at Cairo, the British Minister, Sir Evelyn Baring, suspecting some duplicity, asked for a copy of the document, and when Eyonb Pasha refused to communicate the contents of the firman until after the investiture, Minister Baring advised the Khedive not to proceed with the ceremony. Eyoub Pasha then disclesed the substance of the firman, the nature of which had been known and approved by France and Russia before the missive left Constantinople.

The Italian squadrons which were about to leave Alexandria got orders to stay, and the officers on leave were re-called to the ships. Yesterday the British and Italian ambassadors at Constantinople sent a joint note to the Grand Vizier saying that the firman must be altered or Eyoub Pasha re-called. There seems to be no mistaking the emphatic character of the note, and the immediate result was a telegram received by the Khedive from the Sultan today saying that the firman would be modified omitting the definition of

Tonight's Cairo dispatches state that the settlement excited the greatest satisfaction there. The Foreign Office is reticent except that it confirms the statement that the difficulty is on the point of solution, although no day for the investiture has been fixed.

The meetings in Belfast of the Ulster Defense Committee to arrange for a convention went a degree beyond the ecent Ulster "commoners gathering" In violence of 'tirades' and the resolu-tions recorded Uister's determination to have noth' g o do with a Dublin Parliament, h b is certain to be controlled by me... who are responsible for the crimes of the league and cruelties and boycotting, and who are mere tools under clerical domination. The attempt to set up such Parliament will inevitably result in disorder, violence and bloodshed to an extent unknown in

Ireland for a century.

Mayor Saunderson denied that the
British Parliament had any right to hand them over to another legislature which they would never obey, and the senti-ment was received with cheering. T. W. Russell predicted a ten-fold increase of trouble in Ireland by the Dublin Parliament. Finally an Executive Committee was appointed.

The public sense of danger and importance of the agitation is growing. Over 100 non-conformist Irish minis-ters have agreed to stump Great Britain to arouse religious animus. The Irish Unionists in the House of Commons aftirm that, although the policy of resistance to the Dublin Parliament is limited to a refusal to pay taxes, active armed opposition from Orangemen is inevitable. The Home Rulers in the House consider it the best policy to minimize the importance of the movement by so far as possible ignoring it ment by so far as possible ignoring it until it becomes more fully developed, when vigorous measures may be taken to counteract it.

POLITICAL AND OTHER GOSSIP. Labor candidates who refuse obe-dience to the Liberal electoral executive are everywhere disappearing. executive has approved twenty labor candidates, most of whom are certain of election. The payment of labor men elected is secured partly by general and partly by local funds. The beggardliness of public and trades union contributions paralyses the Independent La-

Out of 295 English boroughs fortyfour have elected teetotal mayors The great cotton spinners' lockout will begin on the 15th inst. There is no sign of the employers giving way. Most mills are heavily stocked and Most mills are nearly stocked and storage will be advantageous to them. The agent of Baroness Roques has visited Mrs. Maybrick, who is recover-ing from an attack of influenza and is still very weak. She receives every consideration from the authorities.

GOV. MARKHAM'S VIEWS.

State Institutions Well Managed, but There is Need of Economy. SACRAMENTO, April 8.—[By the Asso-ciated Press.] Gov. Markham returned last night from an inspection of State institutions. He expressed himself as well pleased with the general management of the institutions, but saw many Charlie Ross is marvelous. Philadelphia advices are to the effect that Mr. Ross ways where the State might profit by economies. He recommends an exchange of surplus commodities between institutions.

The Governor disapproves the contract system of supplying public concerns, and thinks the State would save money by going into the market and purchasing supplies when necessary. The Governor found that over one-half the supplies used in State institutions came from the East. The Governor will further investigate the subject.

The Governor expressed himself against calling an election for a Congressman to succeed McKenna, and thinks the people of the district do not want an election as the session of Congress is so nearly over.

#### CHAMBER OF COMMERCE.

The Regular Monthly Meeting Last Evening.

A Large Number of New Members Elected.

Thanks Returned for the Kite-shaped Track Excursion.

The Directors Take Action About that Defamatory San Diego Circular-A Counter Statement to

The regular monthly meeting of the Chamber of Commerce was held last evening, with President Wells in the chair and Secretary Willard and a fair percentage of the members in attend

The following new members were elected: William H. Knight, J. S. Van Doren, John Scott, W. H. Duzan, George Carson, Max Werner, J. Kuhrts, W. P. Ramsaur, Wood & Church, R. P. Sibley,

Ramsaur, Wood & Church, R. P. Shley, George McAllaster, L. Bixby, J. O. Koepili, Joseph Burkhard, Ernest Wat-son, Cook & Langley. On motion of Mayor Hazard a special meeting of the board of directors was called for Saturday afternoon to con-sult with the ladies about a flower fes-tion of the Editorial tival for the reception of the Editorial

Association.

The following resolutions were The following resolutions were adopted by a unanimous vote:

WHEREAS. The members of the Chamber of Commerce were recently entertained by the Southern California Railway Company in a trip over the Kite-shaped Track: there-

fore, be it

Resolved, That the Chamber of Commerce desires, on this occasion, at its first general meeting since the excursion, to give public expression to its appreciation of the compliment and to testify to the pleasure and the gratification which the trip afforded to all.

and the gratification which the trip afforded to all.

Resolved, That we find in the fact that such an excursion was terdered and was so generally accepted a satisfactory evidence of the harmonious feelings which exist between the railroads and the commercial element of this city a state of things which we hope may be indefinitely continued.

Resolved, That we tender our sincere vote of thanks to the Southern California Railway Company, to General Manager K.

H. Wade and to his staff of assistants, and that a copy of these resolutions be forwarded. to President Manvel, to General Manager Wade and to the newspapers of this city.

Resolved, That the Chamber of Commerce tenders a sincere vote of thanks to the people of Redlands for the delightful entertainment provided by them on the occasion of the recent Kite-shaped Track excursion.

After the adoption of suitable reso

lutions in memory of the deceased members. Henry M. Smith and J. M. Skinner, the meeting adjourned. DIRECTORS' MEETING. The board of directors of the Cham-

ber met in regular session at 8 o'clock vesterday afternoon.

There were present Directors Wells, Hazard, McGarvin, Francisco, Forman, Lankershim, Braun, Edwards, Johnson, Hughes. C. M. Wells occupied the chair.

The secretary presented a financial statement showing a balance of 8811.75.

\$811.75.
Bills to the amount of \$118 were read and ordered paid.
A communication from the Grand Rapids Board of Trade asking the Coamper of Commerce to indorse a proposition to place the control of the telegraph lines in the hands of the National Government was read and referred to the Committee on Laws and Legislation. Legislation.
A considerable discussion took place

A considerable discussion took place on the subject of the circular recently distributed among the Congressmen at Washington for the purpose of injuring the prospects of San Pedro harbor for an appropriation. Ex-Mayor W. H. Workman, who was

present, was heard on the subject and strongly urged that action of some kind be taken looking to the correction of these misstatements. Director Lankershim moved that the committee be appointed to consider the circulars and send communications to the San Diego Chamber of Commerce and Board of Trade with regard to it, and also to send facts to Washington to refute its

statements.
The chair appointed as such committee the same committee that had pre-pared the memorial regarding San Pedro, which was recently sent to Washington. It consisted of lowing: H. Z. Osborne, W. H. We man, H. T. Hazard, Hervey Lindley H. Z. Osborne, W. H. Work-

The board then adjourned.

#### HIS IDENTITY ESTABLISHED.

The Name of the Unknown Suicide was Thomas Crowley. The following postal card received at THE TIMES office last evening, clears up the mystery surrounding the suicide of the young man who committed suicide in a Broadway lodging-house Tuesday or Wednesday by taking morphine:

or Wednesday by taking morphine:
There is no mystery about the young
man who took morphine. He is Thomas
Crowley and worked at Harrison & Dickson's broom factory, He was as goodhearted a fellow as ever lived. He has
been talking of taking morphine for
months. He was a materialist and had no months. He was a materialist and had no fear of the future. I am the friend to whom he wrote the note published in The Times. I mailed you a card but you may not get it as soon as this.

Respectfully, W. W. CABRINGTON.

Respectfully, W. W. CARRINGTON.
At the inquest no one appeared who
knew the man, and he was buried as an
"unknown." While the body was at
the morgue it was viewed by a number of people, but he was not recognized. This is is accounted for by the fact that the body was in bad condition, life having been extinct for some hours before it was discovered.

New Variety of Orange.

A sample box of "California Beauties," a variety of oranges propagated and grown by Dr. W. S. Jones, near Tustin, Orange county, was received at THE THES MICE JAMES of Orange that Dr. Jones has propagated and of which he is very proud. Aside from its flavor the special quality claimed for it is that it is ready for the market in January or will remain on the tree in good condition as late as August. Dr. Jones has donated several boxes during the season for the Chicago exhibit.

An Important Case Opened Again. From the San Francisco Customhouse was shipped here a case of imported woolen goods. The said case has been opened by Gordan Bros., tailors, at No. 118 South Spring street, and the goods will be used for making suits to order for spring and summer at prices that cannet be beaten.

THE Boston Journal says that the marble-cutters and polishers of that city are having a practical exemplifica tion of the results of "tariff reform." An insufficient duty is permitting the local market to be filled with foreign marble, and where 150 cutters were busily employed three years ago at good wages, it is said that only twenty-five are now at work. This aptly illustrates on a small scale what would happen on a large scale if the Democratic party were in a position where it could reduce the tariff to a strictly revenue basis. Yet four-fifths of the marble-workers of Boston have habitually voted the Democratic ticket. Whether they will do so ereafter depends on their ability to subordinate prejudice to reason.

Proved by Democratic Specifications If there is a thing we enjoy above anything else it is to agree with an adversary. And when that adversary is on the other side of politics, and we are able, in perfect amity, to shake hands across the bloody chasm-it smacks of the beatitudes.

In discussing the status of the Demo cratic party the other day THE TIMES Monday. The fight has waxed exceed- remarked that it is a party of negatives; that its time of positive, aggressive effort was before the war, and ended when slavery was swept away, leaving it for the past thirty years nothing but an unending round of dissent and opposition; that there is no better prospect for the future, and that the Democratic party will never die as long as there is anything to oppose.

Our contemporary, the Herald, accuses us of attempting to "preach the funeral of the Democratic party" and "give it sepulture," and "dispose of it for the thousandth time." This charge is based on a misunderstanding. We distinctly stated that the Democratic party seemed destined to live forever-"back number." However, that is a minor matter. We can afford to disessentials if only we are able to come together on the more important points of the argument. Challenged to rethus sums up its accomplishments, which, for convenience of reference, It is not necessary, in order to substanlevel, and frosts visit it in every month tiate our main argument, to deny any claim which the Herald puts forth, and that is where the sweet beneficence of agreement comes in.

Here in the category laid down b the Herald there are a few positive accomplishments before the war, and, since that event, what? A most formidable array of negatives! Only one positive thing proposed in all these thirty years-the acquisition of a navy And when that idea was taken up by the Republicans and carried forward well toward accomplishment it was suddenly checked by the Democratic party, which repented of its one positive idea. No wonder our contem porary is struck by its own array of negatives, and says: "Perhaps the greatest service the Democratic party has been to the country of late years

lies in what it has prevented." There may be a good many differ ences of opinion as to the great service which the Democratic party has performed for the country by opposing everything in sight. It may have been right in a few instances, and may sometimes have been a wholesome check on legislation. Even a balky horse might be of great service by preventing a team from getting on a railroad track at the wrong time.

But such a horse is as liable to balk the track and cause an accident as to balk off the track and prevent it. The chances are even. Nobody will extoll constant balking in order to keep a team out of harm's way. What we set out to impress upon our readers is that the Democratic party, for the past thirty years, has played the part of a balky

So, then, the assertion of THE TIME that the Democracy is a party of opposers, dissenters, obstructors and do-noth ings, holds good. The charge is substantiated by excellent Democratic fined \$7 by Justice Austin, which was paid. Dunn at once swore out a complaint against Mann for battery. Dunn says Mann was the aggressor and that, instead of the fight being about his illtreatment of his wife, it grew out of a brutal assault by Mann on his sister-in-law and that when he interfered Mann atruck him with a slungshot. He further stated that when the case is investigated some damaying facts against authority, as above outlined. And the Herald has not named all of the prominent features in the party's history, either. Not by a jug full! have included in the positive things becost, but wouldn't the ruin of a fore the war—the promotion of slavery.

Hence, we are abundantly justified in our first assertion that the Democratic party is a negative party, and in this the Herald agrees with us quite remarkably. We do not wish it understood that we concede as negative virtues all the items in the category which the Herald deduces. Some of them are genuine, some are fanciful, some are vices instead of virtues.

at Tremont Temple this forenoon. convention was called to order by Secretary Buckley of the Democratic State Committee.
The Committee on Credentials reported 323 towns and 28 cities represented by 1931 delegates.
Hon. Edward Avery of Braintree was

manimously chosen as permanent chairman. Mr. Avery, upon taking the chair

addressed the convention at considera-ble length. He reviewed the history of the Democratic party in this State for many years; told how it had fought undismayed by defeat, unawed by force, unseduced by promises for places of power or of honor; undisturbed by sneers and scoffs; outvoted, but never disheartened or corrupted, until toda Massachusette is placed among the doubtful States. In his opinion she could soon be moved into the column of States certainly Democratic.

could soon be moved into the co.umn of States certainly Democratic. Taking up the silver question, the speaker said:

No Massachusetts Democrat in Boston or in Washington, in private life or in Congress, hesitates to express himself on the silver question. We are thankful, that the danger of the passage of a free coinage act seems for the present to be averted. Some voters who contributed to this result may have voted from pure patriotism, some from pure politics and some from pure satisfaction with the existing law. Fromeach I accept the result with gratitude and forego all criticism of their motives. We are equally opposed to the existing law and to the proposed law. The calsting law is a Republican measure and we hold the Republican party responsible for it and for all its attendant evils.

He declared that the national Democratic party is for honest money: a cur-rency of gold and silver, every dollar of which shall be of equal intrinsic value all over the whole world. Until this policy is modified by another national convention no man, or set of then in Congress, or out of Congress, can commit the party to any other policy. The Republican party in its platform and in the consistent provisions of the act of 1890 is committed to the opposite pol

The speaker then took up the questariff and reviewed at length the effect of the McKinl y bill upon New England industries and

Success is a duty; how to secure it will be an oft repeated problem. Submit it to the convention to which you today elect representatives of your State. The first great step is the adoption of sound principles and a declaration of policy to guide legislators and the executive. The next duty will be the selection of a candidate. I believe the candidate should be as strong as the platform and, indeed, should be an embodiment of the platform and not merely that, but one who is so wedded to his principles that he would encounter defeat in the open defense rather than insure success by discreet silence. I believe that our candidate should be a man of tried honesty, broad and comprehensive patriotism and undoubted courage; cool in action, deliberate in judgment and ready and willing under all circumstances and at all hazards to do what he believes to be right. To Success is a duty; how to secure it will b to do what he believes to be right. To such a man the destinies of the great Na-tion can be entrusted. To such a man doubt not the delegates from Massachu setts will give their united votes and such a man I believe the united Democracy will elect as the next President of the United States

county for removing certain fixtures from the old Courthouse. The Road Overseer of Vernon district Mr. Avery's address was listened to with close attention. When Mr. Avery said the next President must be a Democrat there was applause and shouts of "Cleveland." Mr. Avery attempted to proceed, but cheers were demanded for Develand and given with a will and a tiger. Then came a call for cheers for Hill. These were given, but with a lib-eral mixture of hisses. As Mr. Avery proceeded to draw the

general reduction in the tariffs imposed by the bills of 1883 and 1890. Referring to money it says:

We believe in honest money the gold and silver coinage of our Constitution and in a currency convertible into such coinage without loss. We believe that all dollars coined by the United States should be of equal intrinsic value and all paper currency issued by the Government should be redeemable in either gold or silver coin at the discretion of the Secretary of the Treasury. While we believe in the full remonestization of the latter metal by international agreement, we are equally opposed to the free and unlimited coinage of silver by our Government without concernent action of other governments. We denounce the Republican act of 1890, which requires the monthly purchase of 4,600,000 onces of silver and the issue upon it of oppared of \$54,000,000 per annum in paper.

The convention proceeded with the
nomination of delegates-at-large. It
was decided that a majority should be
necessary for election, and when the
balloting was completed, in view of the
fact that the ballot might result in the
choice of four delegates, a reconsideration of the vote requiring a majority
to elect was moved. Much confusion to elect was moved. Much confusion followed and the motion was defeated. The chairman of the Committee on Ballots reported that Partick A. Col. lins, John E. Russell and Albert C

from Glenalvin's men by the unlucky numbers of 13 to 5.

Just before the game commenced, Capt. Fred Carroll indulged in a little exhibition of authority by fining "Easy" O'Neill \$25 for refusing to get out and limber up his arm, but the wax-works twirler only smiled. The Colonel himself appeared to be a little out of sorts before the game started, out the smile which spread over his face when his idol swatted the ball over the fence in the first inning, and brought in two runs, broadened into a grin in the third when the tallenders made seven runs off two measly singles. This put the Colonel in a charming humor and he kept getting more and more amiable as the game progressed until, with a sudden burst of contidence and enthusiasm in the ninth ianing, he solemnly declared that he would play the team intact during the whole season. Now this is a big pledge for the Colonel to solemnly make at this stage of the game, because last year he had fortynine men on his salary list, and he has already released one man for making a couple of errors this season. It is certain the Oakland magnate felt very aiready released one man for making a couple of errors this season. It is certain the Oakland magnate felt very proud of himself, for he was seen to wring his own hands several times by way of congratulation, and he also wiped out the \$25 fine against "Easy" before it was entered up. He further distinguished himself by buying a couple of boxes at the theater for his tail-

enders.

The ladies turned out in force yesterday afternoon, and the grand standwas well filled with the wealth and beauty of Los Angeles. While the game was one sided after the third inning, there were numerous sensational plays which were heartily applanded.

The visitors began to count in the first inning. With two men out and O'Brien on second, Capt. Carroll lifted the ball over the fence for a home run In the third inning two errors by Hasa-maear, one each by Hulen and Rogers, two bases on balls, two sacrifices by Hardle and German and two singles by Smith and Hutchinson were responsible for seven runs. In the fifth Lohman's two-bagger, German's single and an er-ror let in another. In the sixth Carroll singled, stole second and scored on

Wright opened the game with a single for the giants, but was coached in home on Glenalvin's double and was caught at the plate. Then Glen was caught off second base on the same play. In the second Hasamaear singled, Newman crowded him to second and he scored when Lohman dropped Hulen's hot fly. In the third errors by German, Wilson and O'Brien and a single by Glenalvin netted another run. In the fifth three bases on balls and singles by Tredway, Glenalvin. Hasamaear and Newman let in the last three runs for Los Angeles. Following is the official score:

Testing the Baking Powders.

Comparative Worth Illustrated.

BY PROF. PETER COLLIER, LATE CHEMIST IN CHIEF OF THE

Above diagram was drawn and verified in all its details, by Prof. Pet-Collier, who is pre-eminent as a Chemist, and Scientist. The illustration is made in accordance with his chemical tests of each brand enumerated.

The Carbonic acid gas was calculated to get the leavening strength and the quantative analysis to ascertain the comparative wholesomeness, purity and general usefulness of the leading Powders. The result of Prof. Collier's examination and test, reveals the fact, that, with but one exception, every brand tested contained either Ammonia or Alum, and a number both.

Not one woman in ten thousand would use an Ammonia or Alum Baking Powder if she knew it. Such Powders not only undermine the health, but ammonia imparts a sallow or blotched complexion.

Norn.—Dr. Price's Cream Baking Powder, as shown by Prof. Collier's examinations, is the only pure Cream Tartar Powder found free from adulteration and the highest in strength. All authorities report Dr. Price's free from Ammonia, Alum, Lime, or any other adulterant. The purity of this ideal Powder has never been questioned.

\*\*\*Indicates the Powder containing either Ammonia or Alum.

While the diagram shows some of these Ammonia or Alum Powders to be of higher strength than others classed below thera, it must not be taken that they possess any value. All Ammonia or Alum powders should be avoided as dangerous, no master how high their strength.

Court then adjourned until Monday THE LEFFLER MURDER TRIAL.

The trial of the Leffler murder cas was resumed before Judge Smith and a jury in Department One yesterday morning, and so far as the testimony is concerned, was concluded.

H. W. Altman, the interpreter of the Hungarian language, was recalled by the prosecution for the purpose of show-ing that in a former statement Kormos had said that Kandalec had killed the watchman; but the court refused to ad mit this testimony, and he was with-

The defense then recalled Henry Biescar, another interpreter, and the jury, having first been excluded, he was examined for the purpose of showing that when Kandalec testified before the Coroner's jury he was warned before the Coroner's jury he was warned before hand that it would be better for him to tell the whole truth in the matter. The jury was then recalled and George W. Puner and W. F. Poor were examined with reference to a plat of the scene of the affray. This closed the case for both sides, and Assistant District Attorney McComas opened the argument in behalf of the prosecution. He was followed by Messrs. W. A. Cheney and J. R. Dupuy for the defense, and at the the close of the latter's address to the jury court adjourned for the day, the matter going over until this morning.

The courtroom was crowded to a device of discomfort during the afterwood.

gree of discomfort during the afternoon, session, even standing room being at a premium, among the interested spectators being several ladies who were, as far as practicable, accommodated with seats inside the bar.

RESULTED IN ACQUITTAL.

In Department Six yesterday the case In Department Six yesterday the case of the People, etc., vs. P. Walters, which had been transferred from Department One, was tried before Judge McKinley and a jury and resulted in the acquittal of the defendant. Deputy District Attorney Blades appeared for the prosecution, with W. J. Variel, Esq., as associate counsel, while the defendant was represented by G. Wiley Wells, Esq., and Morgan, Esq., of Santa Monica.

Wells, Esq., and Morgan, Esq., of Santa Monica.

The jurors selected to try the case were: J. L. Adams, J. M. Armour, J. A. Barrows, J. Brymer, A. Buhler, H. Cleveland, J. M. Clyman, D. D. Johnston, A. Joughin, C. L. Lamereaux, A. F. M. Strong and C. W. Strong.

The witnesses examined were: A. B. Adams, H. W. Tyler and F. H. McAllister, for the prosecution; W. Van Dyke, J. C. Wood, W. E. Webb, B. E. Taney, M. D. Johnson, F. R. Willis, T. A. Lewis, E. D. Suits and P. Walters, for the defense.

Matters, who was charged with having assaulted A. B. Adams with intent to commit murder at Santa Monica on December 8, 1887, left the country, but a short time ago, returned and gave himself up, and the jury, after hearing the facts in the case, returned into court at 5:47 o'clock last evening with a verdict of accurate. a verdict of acquittal

AMOS ABBOTT HABBAS CORPUS The matter of the application of Amos Abbott, upon babeas corpus proceedings for his release from the custody of the sheriff, on the ground that he is illegally detained, came up for hearing before Chief Justice Beatty of the Surveys Court yesterday afternoon, the sace being presented by G. C. Stephens, for the petitioner, and Waldo M.

York, Esq., and Deputy Attorney-Gen-York, Esq., and Deputy Attorney-General Layson for respondent. The contention of the petitioner was similar to that made in the Superior Court; but that of the respondent was to the effect that in a summary proceeding of this nature the Court was not acting under the code, but used its inherers power to enforce its orders. The matter at the loss of the argument was submitted. close of the argument was submitted, each side being allowed one day in which to file authorities therein.

ADMITTED TO CITIZENSHIP. □Ernest Eberhart, a native of Ger-many, was duly admitted to citizenship of the United States by Juage Smith yesterday upon producing the necessary proofs of residence here and taking the proofs of residence here and taking the requisite oaths of renunciation and allegiance. Judge Clark performed a like service for Rusk Harris, Esq., a Canadian; Judge Van Dyke admitted a Frenchman named Joseph Robert and P. J. Hummel, a Hessian, was naturalized by Judge McKinley.

CONTINUED FOR ARGUMENT. The case of the California Loan and Trust Company vs. John Cushing, an action to recover the sum of \$174.50, alleged to be due for services rendered by the Brainerd Bros. Company in Sep-tember, 1891, for threshing defendant's corn, which claim was 'assigned to plaintiff, came up for hearing before Judge Shaw yesterday on an appeal from the El Monte Township Court. The defendant, however, by way of a counter claim, alleged that on account of plaintiff's carelessness his grain caught fire and he sustained damages to the extent of \$220, on September 30 last. A number of witnesses were examined pro and con, but at the close of the testimony the matter was continued for argument. ,

HELD TO ANSWER. Cora Belheimer was held to answer by Justice Twitchell of Santa Monica yesterday to the charge of having en ticed Clara Warner, a minor, from her parents, for the purposes of prostitu-tion, under bonds in the sum of \$1200. Deputy District Attorney Diehl down to conduct the prosecution.

Court Notes.

137 South Broadway, 1 Los Angeles, Cal. By his Aerean system of practice, which consists of proper Medicated Inhalations and Compound Oxygen Treatment.

CATARRH.

CATARRH.

Catarrh is often regarded by the patient as a cold in the head, and he often expresses astonishment at his remarkable tendency contract fresh cold intended the contract fresh cold in the decrease that he is scarcely free from one cold before the takes another, and he is always exceedingly careful; it is also a matter of surprise to him that the cold always seems to settle in the head and throat.

Asense of weariness is sometimes felt in reading, speaking or singing; hoarseness at times occurs, a sensation of dryness is felt in the throat, or it appears that some for eign substance as, for instance, a hair, obstructed the throat; there becomes a sense of languor and fatigue, the breath lessens on a little exertion, a short, hacking cough, a peculiar sound in clearing the throat, a feeling as though there was not room enough in the chest to breathe. These and other symtoms occur after the disease has made considerable progress. Then it is a time when consumption is about to begin its dreadful work. Up to this point the progress of the disease may have been slow, and the catarrh for years and has not each of the contract seemed to become much worse, and trusts he will "by and by" recover. But this delusion is the grand error which has peopled our cemeteries with consumptive forms, as all forms of catarrh end finally in consump. The Aerian system of practice is applic a ble to all diseases of the respiratory organs and by this system of practice every case of catarrh is curable. I

The above are two fac similes of many REWARDS OF MERIT or DIPLOMAS of PROFES-SIONAL SKILL which have from time to time been awarded to the CELEBRATED CHINESE PHYSICIAN, DR. WONG, for his superior medical abilities and curative powers.

It has long been customary among the Chinese people when one becomes sick and when repeated attempts to cure him have failed, and he is perhaps given up to die, if, after having been taken to an eminent physician, he because of his disease—the cured, too in addition to the regular fee for professional services rendered, makes the physician a present as a token of gratitude for his restoration to health and the propagation of his life. This present consists usually of a broad plank, presenting much the appearance of a sign-board, filled with characters entirely meaningless to the average English scholar, but full of meaning to the successful physician and his friends. It is not not a uncommitted the successful of the discease which once afflicted theology.

It is not an uncommitted the committed of the second physicians in their native country, and indeed a number of the most successful one in this country are the happy possessors of a few of these high tokens of very superior medical abilitions. See the testimonials accompanying them in the Sunday issue of THE TIMES. Hundreds of other testimonials are on file in the doctor's office, which he has received from his numerous American patients whom he has cured of all manner of diseases.

The veranda was thronged with guests, and when President Ellot appeared in company with Walter Raymond, the popular proprietor of the big hotel, and the other distinguished gentlemen who were to accompany him on the trip, a genuine ovation was accorded him. on Cambridge commons, ringing in their ears.

The trip was not for pleasure only, but had to do with a matter of no less importance than the establishment of a photographic telescope on Mount Harvard, one of the most prominent peaks of the Sierra Madres. The trip was conceived and planned by Mr. Raymond in order to afford President Eliot opportunity so inspect the ground in person. As is customary with whatever Mr. Raymond undertakes, everything was conducted on a liberal scale, and the guests found before their return that every possible provision had been made for their pleasure and entertainment.

every possible provision had been made for their pleasure and entertainment.

The complete party as finally seated, the tally-ho, was made up as follows: President Eliot, Walter Raymond, Dr. A. E. Winship of Boston, editor of the Journal of Education and the Daily Traveler: W. S. Severance of Los Angeles, Prof. T. S. C. Lowe, president of the Pasadena and Mt. Wilson Railway Company: Judge B. S. Eaton of South Pasadena, Judge H. W. M. gee and C. S. Martin of the Mt. Wilson Tol. Road Company, Supt. Will S. Monroe of the Pasadena public schoois, W. H. Hill, C. A. Gardner of the Star and W. S. Gilmore of THE TIMES.

Pasadena public schools, W. H. Hill, C. A. Guardner of the Star and W. S. Gilmore of The Times.

The start was made from the Raymond a few minutes before 1 o'clock. A pleasant drive of an hour past fruitful orchards, grain fields and vineyards brought the party to the foot of the Mt Wilson Tol. Road Company's trail, picturesquely located at the mouth of Eaton cañon. Hersaddle horses and mules were in waiting, and the ascent began without delay. President Eliot on a straw-colored mule, by Winship on an animal of similar specie but colored a milk white, and Prof. Lowon a bay mule presented a novel sight, but managed to retain their customary dignity notwithstanding. Mr. Severance was picturesquely attired in a knickerbocker costume and rode a mule from Sierra Madrithat had to have "blinders" on the brid to help curb his (the mule's) vicious spirit. Mr. Raymond led the procession mounte on a seal brown charger. Supt. Monrowas astride a white horse of large proportions and Editor Gardner's linen duster floated majestically over the flanks of spirited animal, which he handled wit consummate grace. Judge Magee in leggings and surmounted by a slouch hat presented a strictly military appearance, while Judge Eaton on a black horse with lightleather trappings was calculated to canture the admiration of all beholders. Mr. Martin rode the far-famed "Comet" and Mr. Hill looked nusually handsome on top of a mild and gentie mue.

ture the admiration of all beholders. Mr. Martin rode the far famed "Comet" and Mr. Hill looked unusually handsome on top of a mild and gentie muse.

The ascent was made leisurely, severa. stops being made to rest or to admire some specially fine bit of scenery. Shortly before 6 o'clock Camp Wilson was reached. President Eliot expressed a desire to pay an immediate visit to Mt. Harvard, which juts out into the valley in front of the camp. The first half dozen of the party to reach camp accordingly set out on foot for the summit, as daylight was slowly fading inteventide. By brisk walking the topmos point was reached a few minutes before the sun had set, and just as the great shining orb sank behind the mountains to the west Dr. Winship formally christened the peak "Mt. Harvard," in the presence of the dot that great institute. The party stood with uncovered heads under the inspiration of the moment and the christening closed with three rousing cheers for fair Harvard. The view was particularly impressive amid the quickly alternating lights and shadows of early evening. The atmosphere was of pecuatar cucataxish fording the party a wide expanse of vision. Not only was the shore line of the Pacific plainly outlined, but also the island on Santa Catalina, thirty miles out at sea: San Clemente, double that distance from shore, while still farther away at a distance of nearly 150 miles was dimly outlined the little island of Santa Barbara. To the west "Old Baldy," with its snow-capped summit, stood out prominently, and beyond the mountain of San Bernardino, with hoary locks, while further to the southward the lofty summit of San Jacinto was dimly visible, nearly 100 miles was dimly vottlined the lofty summit of San Jacinto was dimly visible, nearly 100 miles was and Mrisk-nessed by President Eliot, Dr. Winship, H. The return was then made to camp, where a sumptuous repast of eatables and drinkables was in waiting, prepared under the efficient direction of Mr. Raymond's second cook, who had been transported to the spot in company with the provisions early in the afternoon to meet the exigencies of the occasion. There was a wholesome flow of wit and joility around the festive board, led by such genial personages as Mr. Raymond and Dr. Eliot, and the guests only left the table when it was discovered that a huge bonize had been lighted in their honor just outside. While the logs were still in full burning a new a. 4 brilliant constellation of stars suddenly made its app\_arance in the valley below. It was the electric lights of Pasadena, which were turned on for half an hour on a moonlight night through the thoughtfulness of Mr. Raymond and the courtesy of Mayor Lukens for the benefit of the visitors, and if the Mayor could have heard half the favorable comments made on the brilliancy of the spectacle he would have felt amply repeal for his trouble. A walk to the summit in the moonlight and a chat around the glowing embers of the bonfire were the closing events of a most pleasurable day.

Before 5 o'clock yesterday morning the

ing to the camp for breakfast, Mr. Hill took several photographs of the party near the old observatory. After a hearty meal and several more photographs the descent was begun, and in less than twenty-four hours after the start, the party was back in Pasa-dena after a most delightful and instructive trip.

ace after a most delightful and instructive trip.

As before stated the object of the trip was to furnish President Eliot an opportunity to inspect the proposed site for Harvard's new photographic telescope. It will be remembered that several years ago Harvard placed an instrument of this description, with a 13-inch lens, on Mt. Wilson for experimental purposes. The idea was to keep it there three months and then transport it to Peru. So successful was the experiment that the instrument was allowed to remain over a year where the old observatory now stands. Then it was moved to Peru with the object of comparing results. Since that time a New York lady has donated a liberal sum to Harvard for the sults. Since that time a New York lady has donated a liberal sum to Harvard for the construction of a new instrument with a 24-inch glass. This instrument is now in process of making and will be completed within a year. A suitable site for the glass is what President Ellott is looking for.

within a year. A suitable site for the glass is what President Eliott is looking for. It is universally conceded by those at all conversant with the subject that Southern California furnishes the best site for astronomical observation in this country. So eminently satisfactory were the results obtained from the former instrument that it has been a foregone conclusion that the new instrument would be located near by. After the Mt. Wilson Toll Road Company had purchased the summit of Mt. Harvard, giving them a total of 240 acres commanding the most desirable spots in the vicinity, they offered Harvard ten acres with water privileges free of charge, provided they locate the telescope there. This offer is now before the university in writing.

No sooner had President Eliot reached the summit than he expressed his gratification at the outlook. He was very agreeably surprised at the extent and grandeur of the scenery, and when night had iallen he was especially impressed with the favorable character of the atmosphere for astronomical purposes. To The Times reporter President Eliot said that in locating an observatory two cardinal points are to be considered—thejextent of the horizen and, as ne expressed it, "the woobling of the atmosphere." In the latter respect Mt. Wilson had been found to be well nigh perfect. Dr. Winship was emphatic in the plain in the Miller to the prisen and, as the place to lo. ect. Dr. Winship was emphatic in the pinion that Mt. Harvard is the place to loopinion that M.. Harvard is the place to locate the observatory. He was enthuslastic also in his praise of the scenery, which in his estimation far surpassed that of the Yosemite. He considered the journey to the summit equal in picturesqueness and scenic attractions to that to the famous Glacier

At breakfast yesterday morning President Eiiot in response to a toast briefly stated the pleasure the trip had afforded aim. He had also received much instruction. With reference to the photographic views taken by the telescope on Mt. Wilson he said they were the most satisfactory of any in the possession of the university and ne intimated as strongly as is possible without absolutely committing himself that the new twenty-four inch glass will be located within sight of Pasadena as soon as completed. Dr. Winship expressed his gratitude to President Eilot for naving afforded the other guests the pleasure of the trip through the inspiration of nis presence. He said that nothing adds so much to nature as the charm of personhis presence. He said that nothing adds on much to nature as the charm of personnis presence. He said that nothing adds so much to nature as the charm of personity. The trip, he added, had been one of the most enjoyable and instructive he had yer taken and would ever be a green spot in his memory. Mr. Raymond predicted the establishment of the telescope on Mt. Larvard. He said that he would attend to its transportation across the continent to the base of the mountains, and felt sure that Prof. Lowe would attend to getting it to the top over his new railroad to the land of generously donated to its use. To this crof. Lowe added an emphatic affirmative and intimated that his road will be in operation to the summit before the glass is completed. Mr. Gardner spoke briefly in behalf of the press and other guests present on the trip had afforded them.

From the camp and with the aid of a hap Prof. Lowe outlined the course of its road along the mountains on the opposite side of the caffon. He expects to have he first section completed inside of four ionths, and work will then be pushed to

This road, as oes the trail, will afford some of the grandst mountain scenery to be obtained anywhere, and will prove a paying venture rom the start. Yesterday morning no cast han forty people besides the above arty, were discovered on Echo Rock at unrise, which merely hints at what travely ill be when the season fairly opens. Alnough snow still lay in some of the canons, he air was balmy as in midsummer, and overcoats were a useless appendage.

SANTA ANA. [Branch office at No. 206 West Fourth street, where subscriptions and advertise ments are taken.]

It is now generally understood by those who are in any way posted on railroad matters in this vicinity that the Santa Fé in tends to corral a portion of the shipments of fruits, cereals and general merchandise from Tustin. The vicinity of Tustin is rich in agricultural and horticultural products, and for the past few years the Southern Pacific has reaped the harvest from this section by its branch road from near Ana

men have been in the city, and it has been a matter of conjecture with many what improvements were about to be made. Yesterday the information was given out that a switch would be put in south of the city, leading to Tustin, about two miles from the main line and that a station will be established at the junction. The ship ments of oranges from this county are heavier from Tustin than any other one point in the county and by this movement of the Santa Fé the road will no doubt re-

Nearly all the colored brethren are born with nimble feet and melodious voices that are full of tenderness and sympathy, consequently the dancing and singing last night was, in frequent instances, more entertaining than much that is produced on the stage by so-called professionals.

The riotous proceedings began with an invisible chorus by the company, in-troducing "Happy Little Darkies on the Levee" which was full of the essence of "Ole Virginny." The easy, off-hand fashion in which the participants en-tered into the fun on hand was very captivating and the house howled for more.

more.

Then a clever little chap, as dusky as an electric light shadow, Bertie Trice by name, got into the center of the stage and sang a song and danced a few

grotesque steps that set the hands clap-ping for some more of the same. Jennie Cash, one of the prize winners, sang "Swannee Ribber" with true ne-gro pathos and earned an encore, which

gro pathos and earned an encore, which was responded to with some very clever buzzard loop and wing dancing.

Messrs. Williams, Craft, and Miss Cash did some excellent dancing as a trio, Mr. Craft did a terpsichorean turn in bare feet, and Messrs. Trice, Craft, Williams and Gresham as a quartette rendered some plantation and jubilee songs so well that it took five encores to satisfy the noisy house.

Anita Leon, a little miss, sang something very sweetly, and then five urchins of color, with their hands tied behind them, each kneeled before a chair with

a robust lemon pie in it and at the word "go" proceeded to do the pastry up by word of mouth. That portion of the pie that didn't go down the red lane was daubed over their faces, and the audience roared and shouted approval.

And then began the cake walk, participated in by some ten couples of gallants and ladies, the while Hicks, J., Mellus, J., Denis, J., and Lewis, J., sitting in bank, proceeded to make note of their paces as the ambitious participants went through. Around the Kite-shaped Track they went doing their prettiest, every shining eye looking its brightest and every trick of style and deportment brought into play, until there was enough good form, rare niftiness, and general way-uppishness piled up before the assembled multitude to make them wonder that the world contained so much of what is commonly called wonder that the world contained so

The prize winners and the prizes are as follows: Most stylish couple, Mr. Gresham and Miss Cash; prize for the lady, the big cake and an elaborate fan; for the gentleman, a handsome medal. The ladies' prizes were won first by Jennie Lee, a fine gold watch; second, Mattie Fuller, pair of bracelets; third,

Anita Leon, parasol.
Gentlemen winning prizes were first,
Henry Smith, gold watch; second,
Frank Childs, the polisher of La
Blanche, the Marine, gold-headed cane;
third, Mr. Coleman, silver pitcher.
The walk was a very enjoyable novelty, and it is hoped that the enterprising managers fared as well as they
deserved to Anita Leon, parasol.

Jo-Jo at the Cake Walk.

Jo-Jo appeared at the cake walk last night accompanied by Miss Susy Snowball, representing the Busy Bee Sho House. Jo was attired in a black full dress coat with one red and one green lapel, white vest, green pants and silk hat; he wore cuffs on his shoes, and altogether presented an unparalleled and wonderful appearance. Jo will ap-pear on the streets today attired in his original costume and ask the public to protest against the decision of the judges.

Our Method a Success-The Hit of the

Our Method a Success—The Hit of the Season.

By adopting the principles of the timeworn adage, "Quick sales and small profit," has brought unqualified success. Thousands of ladies cheerfully testify that Mozart's style and quality of millinery is equal to any in this city. Others may copy our styles, but none our low prices.

It is absurd for ladies to pay high prices for millinery when at Mozart's the identical same hat, the same flowers and the same style may be had for much less price, sometimes 50 per cent less than many other places. No store can live and sell cheap unless they handle the quantities. We claim to sell more millinery then any two stores in the millinery line in this city: therefore we can exist on smaller profits than any com-

can exist on smaller profits than any competitor. In all candor we ask you to come and see for yourselves.

The hit of the season has been our special sale of a hat and flower at 50 cents for both, in all colors and all sizes and many shapes. The same would be considered cheap at \$i elsewhere.
